

## The First Annual Paprika Meeting 13-14 December 2010, Bergamo, Italy

### *PROGRAMME*

#### ***Monday 13***

**11:00:** Registration

**11:45:** Welcome from EVK2CNR (P. Bonasoni)

**12:00:** Objectives of the 2 days (Laj 15 minutes),

**12:15:** Presentations of the 2 sub-projects (Provenzale/Arnaud - 15 minutes each)

**12:45:** Discussion

#### ***13-14 Lunch***

**14-16:** Glacier studies and data (Arnaud/ Mihalcea, D'Agata) (which glaciers are equipped?, methodologies, where are the data, etc..)

**16-17** Atmospheric and snow data (Marinoni , Cozic). (What is available?Where are the data ? What are the main features to be modelled? Summary of ACP special issue.)

**17-18:** Hydrological data (Chevallier/ Rosso, Bianchi, Soncini). (What data is available ? Data from Nepal and Pakistan partners ? ) EVK2CNR input needed

**18-19:** Discussion on data availability for modelling studies and Data base (Arnaud, Provenzale, EvK2CNR)

**19:00:** End of meeting 1 day

**20:00:** Joint diner

#### ***Tuesday 14***

**8:30-9:30** (Balkansk/ von Hardenberg, Cagnazzo, Fierli,): Global modelling work. Monsoon modelling, Scenarios and links to regional modelling

**9:30-10:30** (Jacobi, Gallée, Giorgi, Nair): Regional modelling including snow-pack modelling

#### ***10-30-10:45: Coffee break***

**10:45-12:00** (Zin/ Rosso,Provenzale,Giorgi): Hydrological modelling (How to respond to global papers such as the recent Science paper)

**12:00-13:00** (Aubriot - Smadja): First results from adaptation studies

#### ***13-14: Lunch***

**14-15** (Arnaud/ Vuillermoz): Organizing future field work together

**15-16** (Arnaud/Provenzale, Bonasoni, EvK2CNR): PAPRIKA data base -data sharing

**16-16:30:** Final discussions.

**16:30:** End of meeting
